

WHS-PRO-010 Hazardous Chemicals Procedure

Appendix 3: Outer Warning Placard

Outer warning placards:

- Schedule 11 Hazardous Chemicals outer warning placards, are required where the total quantity of Schedule 11 Hazardous Chemicals or group of Schedule 11 Hazardous Chemicals, exceed the placard quantity listed in Table 10.1, Schedule 11, of the *Work Health and Safety Regulation 2011 (Qld)*:
 - This applies to all chemicals stored within a location, and is independent of JCU management structure or organizational lines;
 - As such the placard plan will need to consider all storages within the location;
- The outer warning placard must be red letters on white or silver background and consistent with Figure 1.
