

# Engineering

## Edwin Jomon

Engineering

**CAREER PATH:** I am interested in pursuing mechanical engineering, focusing on mining and hopefully, working for a multinational company such as BP. I hope to create tools and systems that optimise sustainability in current practices.

**ABOUT ME:** I come from a southern state of India known as Kerala, which I sorely miss and haven't had a chance to visit since the pandemic. I love cappuccinos and enjoy a good read. I am an avid Tennis player and enjoy running.

**FUN FACT:** My favourite book is The Little Prince .

## Joseba Kelly

Engineering

**CAREER PATH:** I'm still unsure about the future, however something in the civil/ mechanical side of the industry appeals to me. In Civil I am primarily interested in structures (similar to architecture), and mechanical I am interested in Power generation.

**ABOUT ME:** I am Basque, so my family hails from a region in Spain near the French border. I am also from the Burdekin. In my spare time I enjoy playing soccer, I'm a goalkeeper and am a Liverpool fan.

**FUN FACT:** I've travelled overseas 6 times.

## Cuong (Jack) Nguyen - 2022 Mentor Leader

Engineering - Electrical / Electronic

**CAREER PATH:** I would like to work in power industry or sugar milling industry. Those are the ones that I had opportunities to do my placements with and they inspired me to love what I am doing more.

**ABOUT ME:** I graduated from high school in 2012 and didn't get to go to university after it due to my special circumstances. But I found where I wanted to be eventually and loving what I am doing to become an electrical engineer. I love soccer and Chelsea is my favourite club.

**FUN FACT:** I like to make people laugh when appropriate 😊.

## Ethan Waters

Engineering (Electrical & Electronic) / Science (Physics)

**CAREER PATH:** When I graduate from electrical engineering, I would like to do embedded systems design. This involves a lot of programming, which is one of my main interests.

**ABOUT ME:** I'm from Townsville and graduated from Pimlico State High School in 2017. I love taking my dachshund for walks, playing board games, and playing a variety of sports.

**FUN FACT:** I have a small collection of handmade coffee mugs.

## Ethan Woods

Engineering - Mechanical

**CAREER PATH:** I am going into second year studying mechanical engineering. I currently don't know the exact job I would like to go into. This year I plan on doing work experience in different places to form a concrete plan.

**ABOUT ME:** I have spent majority of my life growing up here in Townsville. I have played rugby since I was six and love watching the Queensland Reds and the Wallabies.

**FUN FACT:** I spent the first 2 weeks of uni last year studying bio med but wasn't enjoying it so moved to engineering and have loved it ever since.
