

Estate Directorate maintenance scheduling is to perform regular statutory work on its power distributions and low voltage infrastructure. This comprises of low voltage circuits on a Residual Current Device (RCD).

For planned power outages with relation to RCD Testing across James Cook University; the following dates are proposed for each outlined building. It is legally required for James Cook University to complete the statutory tests twice per year. This is stipulated by the Electrical Safety Regulations 2013 Section 110, in accordance with testing intervals outlined in AS/NZS 3760-2010.

Regular and controlled maintenance scheduling is a necessary part of any maintenance safety program to help ensure the safety of persons using electrical equipment in the workplace.

Building #	2016 Date	2017 Date	2017 Date	2018 Date	2018 Date
