

2023

Bachelor of Dental Surgery

Entry Information for International Applicants

JAMES COOK
UNIVERSITY
AUSTRALIA

James Cook University's Bachelor of Dental Surgery course is a 5 year undergraduate course and is primarily for school leavers (i.e. applicants who have completed year 12 or equivalent in the last two years). A limited number of places may be available for non-school leavers.

Overview

This program aims to produce graduates of the highest academic standards, who will have the skills, knowledge and aptitude to become competent practitioners of dentistry. Graduates will be uniquely qualified in the fields of tropical, rural/remote and Indigenous dental practice. This course is accredited by the Australian Dental Council (ADC).

Important Dates

1 MARCH 2022 Application opening date for JCU International Application Form. Applications will be accepted for 2023 entry from this date.

31 AUGUST 2022 Closing date for JCU International Application form. Closing date for all applications and supporting documents. Application and supporting documents received after this date will not be accepted.

10 FEBRUARY 2023 Compulsory International Student Orientation

13 FEBRUARY 2023 JCU Orientation week begins

20 FEBRUARY 2023 JCU Academic Year begins

BACHELOR OF DENTAL SURGERY

2023 ENTRY INFORMATION FOR INTERNATIONAL APPLICANTS

Submissions

Please read the information below before applying for the Bachelor of Dental Surgery (BDS) course at James Cook University.

The Written JCU International Application Form can be submitted via a [JCU Agent](#) or [directly to JCU](#) on or prior to the closing date.

The application closing date is 31 August 2022. Applications received after this date will NOT be accepted.

Summary of selection process

Applicants will be evaluated based on the following criteria:

- Academic performance in Year 12 studies and/or in subsequent tertiary studies
- Evaluation of the written component of the application form

In 2023, the College of Medicine and Dentistry has available approximately 15 places in the Bachelor of Dental Surgery course for international applicants.

INFORMATION FOR THOSE STUDYING YEAR 12 OR EQUIVALENT IN 2022

- Provide documentation of your Year 12 examination results.
- The Prediction of Academic Achievement (PAA) sheet is to be completed by your School Principal/Vice-Principal/Guidance Officer or Director of Studies (or equivalent) and emailed to: Admissions, internationaladmissions@jcu.edu.au, by 4pm (AEST), 31 August 2022.

INFORMATION FOR THOSE WHO ARE NOT STUDYING YEAR 12 OR EQUIVALENT THIS YEAR

- If you have not commenced any further studies since completing Year 12, please include a copy of your Year 12 Certificate or equivalent.
- If you have commenced or completed further studies please include a copy of your academic record to date.
- The most recent grade point average (GPA) score will be used to assess applicants who have commenced or completed tertiary studies. For 2022, a GPA of 5.75 on a 7 point scale was required to be considered for an offer but does not guarantee an offer of a place in the program.
- An applicant's other studies/qualifications that do not generate a GPA score will not be considered.

UCAT AND GAMSAT

Please note that James Cook University, College of Medicine and Dentistry does NOT use the University Clinical Aptitude Test (UCAT) or Graduate Medical School Admissions Test (GAMSAT) as part of their selection process.

SUCCESSFUL APPLICANTS

Offers for a place in the Bachelor of Dental Surgery course are made by International Admissions. Applicants are advised to check visa processing times with the [Department of Home Affairs](#).

UNSUCCESSFUL APPLICANTS

Applicants who are unsuccessful will be notified by International Admissions. An applicant who has been unsuccessful in obtaining a place in the James Cook University Bachelor of Dental Surgery, but who is strongly motivated towards a career in the dental surgery field, might consider undertaking a Bachelor degree in Medical Laboratory Science, Biomedical Sciences or Science. Unsuccessful applicants considering undertaking studies in one of the above degrees with a view to eventual acceptance into the Dental Surgery course, should however be aware that the number of places available for non-school leaver entry into the James Cook University Bachelor of Dental Surgery is very limited, and it would be inappropriate and most unwise for an unsuccessful applicant to see that eventual outcome as any more than a possibility.

English language requirements

Unless your education was undertaken in one of the following countries: Australia, Canada, Ireland, New Zealand, South Africa, UK or USA you will be required to meet the following English Proficiency requirement (Tests must be less than 2 years old at time of admission).

ENGLISH LANGUAGE TEST MINIMUM SCORES

IELTS (academic module) with a minimum overall score of 7 and a minimum score of 7 in three of the components and 6.5 in one component (listening, reading, writing and speaking) in one sitting.

OR PTE Academic with a minimum overall score of 65 and a minimum score of 65 in three of the four communicative skills (listening, reading, writing and speaking) and 58 in one component.

OR TOEFL (internet based) with a minimum total score of 94 (23 in speaking, 24 in listening and reading and 27 in writing).

In the final year of enrolment, students may be required, at their own cost, to complete an English test for the purposes of registration with the Dental Board of Australia.

More information regarding registration can be found on the Australian Health Practitioner Regulation Agency (AHPRA) website: www.ahpra.gov.au

Pre-requisite subjects

English (3/4, C), Mathematical Methods (Units 3/4, C), Chemistry (Units 3/4, C); or equivalent.

For international equivalents contact Admissions via email:
internationaladmissions@jcu.edu.au

Inherent requirements and reasonable adjustments

Inherent requirements are the fundamental abilities, attributes, skills and behaviors needed to successfully complete the course. Find your course requirements under [Inherent Requirements](#).

Professional experience placement

Professional experience placement is a formal component of this course and prepares you for registration and/or accreditation as a professional in your field. Visit [Preparing for Professional Experience Placement](#) for more information.

Vaccinations

Students must provide evidence of being immune to hepatitis B and that they have been vaccinated or evidence that they are not susceptible for the vaccine preventable diseases (VPD) of Measles, Mumps, Rubella (MMR); Varicella and Pertussis.

Professional experience placement is a requirement of this course and students may be engaged in roles where there is contact that would allow transmission of a VPD. Students are required to comply with the above requirement prior to commencing their first Professional Experience Placement or by the end of the first teaching period of their studies (or whichever is sooner), otherwise their enrolment will be terminated.

The College of Medicine and Dentistry recommends additional vaccinations and students will receive information regarding these vaccinations at the commencement of their first year. Information on the pre-placement requirements for the Bachelor of Dental Surgery can be found at [Preparing for Professional Experience Placement](#).

This course may have specific admission requirements such as immunisation, the requirement to obtain a Suitability to work with Children Card, federal police check and/or other requirements that Students must comply with. Students must complete all Professional Experience Placement requirements by the prescribed deadlines and maintain currency of all requirements in order to stay admitted to the course.

Working with children

Queensland law contains provisions designed to ensure that persons who are to work with children and young people are first assessed on their known police and disciplinary information. The [Working with Children Check](#) is a screening process that assesses your suitability to work with children and young people. A person whose application is approved will be issued with a Blue Card.

Because the requirements for completion of the James Cook University Dental Surgery degree course include conditions for students to undertake placements and because a student will undertake one or more placements which involve coming into contact with young people, initial enrolment and continuing enrolment in the dental surgery course are conditional upon the following:

- I. Eligibility of the student for a Blue Card at the time of first enrolment;
- II. Maintenance of that eligibility throughout the duration of the course; and
- III. Actual acquisition of a Blue Card prior to commencement of placement.

In the event that a student becomes ineligible for a Blue Card, at any time between the date of first enrolment and the date of completion of the course, the student's enrolment in the course may be terminated. Therefore, persons who have reason to believe that they might have difficulty in obtaining a Blue Card should clarify the position in that regard before deciding to apply for enrolment in the dental surgery course. A person who will or may not be able to obtain a Blue Card should not make application for enrolment in the course.
