

## WHS-PRO-002 WHS Risk Management Procedure

## **Appendix 1:** JCU specific risk management strategies

| Activity Type  | Example   | Applicable procedure                               | Riskware risk assessment | Additional requirements   | Approval   |
|----------------|---|--|--------------------------|---|--|
| Asbestos       | Removal, refurbish or damage of any asset that contains asbestos material or asbestos containing material.  | WHS-PRO-008<br>Asbestos<br>Management<br>Procedure | Not required             | As detailed in the Asbestos Procedure:  SWMS Asbestos removal control plan Form 65 notification Clearance certificate Monitoring Licensed asbestos removalist assessor (occupational hygienist)   | Permit process<br>controlled by<br>Estate<br>Directorate |
| Administration | Working in an administration office, lectures   | WHS-PRO-007 Health Engagement Procedure            | Not required             | WHS-PRO-CHK-007a Ergonomic Workstation Self-Assessment  WHS-PRO-GUI-007b Seated Workstation Setup Guideline  WHS-PRO-GUI-007c Standing Workstation Setup Guideline  WHS-PRO-GUI-007d Sit to Stand Workstations  WHS-PRO-GUI-007e Ergonomic Equipment Purchasing Guideline  WHS-PRO-GUI-007f Activity Based Work Guideline | Approval not required                                    |
| Biosafety      | Genetically modified organisms     Genetically modified animals and plants     Materials derived from human sources     Materials derived from animal sources, in particular those with potential for causing zoonotic infection     Working with poisonous or venomous organisms     Synthetic toxins/biologicals     Working with microorganism | WHS-PRO-009<br>Biosafety<br>Procedure              | Required                 | As detailed in the Biosafety Procedure:  Complete a Biosafety Application   | JCU Biosafety<br>Committee<br>approval                   |

| Activity Type                      | Example  | Applicable procedure  | Riskware risk assessment   | Additional requirements  | Approval   |
|------------------------------------|--|---|--|--|--|
| Boating, diving and snorkelling    | Activities involving the use of a boat for research or teaching.  Diving activities include SCUBA, free- diving / breath-holding and snorkelling.  | WHS-PRO-016 Boating Procedure  WHS-PRO-017 Diving Procedure  Scientific Diving Operations Manual 2020  Snorkelling Procedures for | Required   | Add the trip to the Field Trip module in Riskware.  Add the trip to the Boating and Diving Register  | Boat/Dive<br>Officer<br>endorsement in<br>addition to Line<br>Manager<br>approval          |
| Construction work                  | Work carried out in connection with the construction, alteration, conversion, fitting-out, commissioning, renovation, repair, maintenance, and refurbishment, demolition, decommissioning or dismantling of a structure. | Large Groups  No specific procedure – JCU template available (refer to additional requirements)                                   | Not required for high-risk construction activities where a SWMS is used.  Required for other construction work (refer to additional requirements column) | Completion of Safe Work Method Statement (SWMS) for high-risk construction activities is a legislated requirement. A SWMS is a type of risk assessment. Template WHS-PRO- SWMS-002a Safe Work Method Statement (SWMS) shall be used for all JCU SWMS's.  Construction work that does not involve high risk construction activities still require a risk assessment to be conducted, for simple tasks a SLAM may be sufficient. | Line Manager   |
| Contractor<br>Safety<br>Management | Contractors engaged by JCU for the purpose of performing work or providing a service under a contractual agreement.  | WHS-PRO-025 Contractor Safety Management Procedure  | May be required depending on the nature of the work.   | Risk management processes for managing contractors are detailed in the Contractor Safety Management Procedure.   | JCU Representative (refer to the Contractor Safety Management Procedure for clarification) |
| Field trip                         | Trips for the purpose of<br>work, study or research<br>that are conducted by JCU<br>staff /students off-campus   | WHS-PRO-015<br>Field Trip<br>Procedure  | Required   | Complete the Field Trip<br>Module in Riskware  | Line Manager   |
| Hazardous<br>Manual Tasks          | Retrieval of heavy animal specimens from a chest freezer     Repetitive filling and carrying sandbags     Carrying heavy backpacks for an extended duration on field trips.  | No specific<br>procedure  | Not required<br>as JCU has a<br>specific tool<br>for this type of<br>hazard  | WHS-PRO-TEM-002e<br>Manual Task Risk<br>Assessment   | Line Manager   |
| Ionising radiation                 | Use of an x-ray apparatus     Use of a substance that is considered radioactive under the Radiation Safety Regulation  | WHS-PRO-014<br>lonising<br>Radiation<br>Procedure   | Not required   | As detailed in the lonising Radiation Procedure:  Possession Licensee Radiation Safety Officer Radiation Safety Plan Approval to Acquire Certification Inspection of facility/ apparatus User training Monitoring  | JCU Radiation<br>Safety<br>Committee and<br>Divisional<br>Management                       |

| Activity Type                               | Example   | Applicable procedure                             | Riskware risk assessment   | Additional requirements  | Approval   |
|---|---|--|--|--|--|
| Placements                                  | Student work placement<br>as part of a JCU course<br>requirement  | WHS-PRO-028<br>Student<br>Placement<br>Procedure | Not required   | As detailed in the Student Placement Procedure a Risk Profiling Tool and Risk Assessment Template has been developed to manage placements.   | Placement<br>Coordinator   |
| Plant and<br>Equipment                      | Using plant/equipment where there is a risk of serious injury (e.g. cutting tools/machines)     Modification to plant/equipment     Second hand plant/equipment | No specific<br>procedure                         | Required   | The following tool has been developed to assist JCU staff/students to identify risks associated with plant/ equipment:  WHS-PRO-TEM-002b WHS Plant & Equipment Checklist   | Line Manager   |
| Remotely piloted aircraft RPA (i.e. drones) | Included RPA operations<br>(Under 2 kg RPA flown in<br>standard Operating<br>Conditions)  | WHS-PRO-018 Remotely Piloted Aircraft Procedure  | Not required<br>(Managed<br>external to<br>JCU)                    | Not applicable   | Managed under<br>an externally<br>contracted<br>companies<br>Remotely<br>Piloted Aircraft<br>Operator's<br>Certificate<br>(ReOC) |
|   | Excluded RPA operations<br>(Under 2 kg RPA flown in<br>standard Operating<br>Conditions)  |  | Required - a<br>general<br>mission plans<br>and risk<br>assessment | Operator Accreditation<br>(CASA)<br>RPA registration (under JCU registration)  | Remotely Piloted Aircraft System Administrator endorsement and Line Manager approval   |
|   | Under 250g RPA flown for education purposes only  |  | Not required   | Not applicable   | No approval required   |
| Research<br>Projects                        | Any research projects conducted by JCU students / staff.  | No specific<br>procedure                         | Required   | WHS-PRO-CHK-002e Research Project – WHS Requirements Checklist can be used to assist staff/ students to identify risks, hazards and JCU specific requirements in relation to research activities.                          | Line Manager   |
| Scheduled<br>Drugs and<br>poisons           | Schedule 4, 7, 8 and 9 have specific requirements to obtain, store and use  | WHS-PRO-011<br>Drugs and<br>Poisons<br>Procedure | Required if the substance will be used in a novel way.             | As detailed in the drugs and poisons procedure S4, S7 (list in Drugs and Poisons Procedure), S8 and S9 drugs and poisons have additional requirements. This includes: tracking, licences, audits, security and purchasing. | Divisional Management and nominated staff on Vice Chancellor Delegation or Drugs Officers  |
