Why JCU?

A STUDENT EXPERIENCE LIKE NO OTHER

- Access to world-class teachers
- Develop skills in state-of-the-art facilities
- Achieve exceptional employment outcomes
 - Benefit from small class sizes
 - Connect with professional networks
- Support through scholarships for merit and equity
 - Discover great accommodation options

EXPERIENTIAL LEARNING

JCU students gain unique insight and skills. JCU Veterinary Science has been independently ranked as being #1 in Queensland for Educational Experience* - because experience has no substitute.

NETWORK WITH INDUSTRY

Forge relationships with industry partners and build strong employability skills with a university ranked #1 in Australia for graduate employment and #1 in Queensland for median salaries.*

ACCESS EXPERTISE

Join supportive learning environments with access to JCU's leading lecturers. JCU Veterinary Science has been ranked #1 in Australia for skills development and learner engagement.*

SUPPORT FOR YOUR SUCCESS

Explore JCU's range of scholarships, grants and bursaries and discover the right financial assistance for you. JCU Veterinary Science has been ranked #1 in Australia for student support.*

*Good Universities Guide 2022 UG Veterinary Science

Bachelor of Veterinary Science (Honours)

✔ Develop strong and applicable practical skills as you learn in dedicated and high-tech settings including teaching laboratories, JCU Veterinary and Emergency Centre and Hospital on campus, on-site animal yards, JCU working cattle station for livestock production and JCU Teaching Resource Centre and Large and Small Animal Clinic on the Atherton Tablelands.

✔ Gain specialist knowledge and skills in tropical and rural veterinary settings, plus experience in tropical animal husbandry and aquaculture. As well as regular practical work and field trips, you will complete a series of clinical placements in your final two years in rural or urban settings in Queensland, around Australia, or even abroad.

✔ Choose a field of work that appeals to your interests with your veterinary university studies at JCU. Build your own private veterinary practice with companion animals or livestock. Be part of positive change in the community by serving with or working in animal nutrition or production. Take the lead in exotic animal research and care at a zoo or wildlife sanctuary.

COURSE DETAILS:

Locations:	Townsville
Start Dates:	February
Duration:	5 years full-time
Prerequisites:	English, Maths B, Chemistry (Biology desirable)
ATAR:	Special Entry Requirements

Please visit the [handbook](#) for a detailed outline of the course structure. Note: Information is for domestic students only

Ready today for tomorrow

Veterinarians play a major role in the health care of pets, livestock, zoo animals, and sporting and laboratory animals. With high and increasing demand for sustainable animal usage and production which meets both health and welfare expectations, our degree makes this a core focus. JCU Veterinary Science students benefit from a range of state-of-the-art facilities, as well as JCU's unique emphasis on rural and tropical practice.

You will acquire the knowledge and skills to diagnose, treat and prevent disease in a wide range of animals including companion animals, farm animals, aquatic species and native fauna. To complement your theoretical studies, you'll gain practical, real-world experience throughout the course and with clinical placements in a variety of veterinary hospitals, private practices, laboratories and government agencies around the state and beyond.

Successful applicants must satisfy their pre-placement preparation immunisations and checklists before undertaking placement. It is recommended that these requirements be completed by the end of your first semester/teaching period.

See [Professional Experience Placement](#) for further information.

“The degree at JCU is aimed more at mixed practice than some of the other universities, which was a real drawcard for me. Since starting my degree, I think what really makes this vet school special is the staff. They are so incredibly passionate about helping you to become a good vet, and they really go above and beyond for you. I was able to be a student volunteer at the Equine Veterinarians Australia conference which was incredible. It was so much fun and a great way to get involved with the profession while still at uni.”

Zoe Walker

BACHELOR OF VETERINARY SCIENCE

“I’d heard great things about JCU Veterinary Science’s practical, hands-on approach to teaching and decided that this was something I wanted to explore. The best part of the degree has definitely been all the places it has taken me. The rural focus really pushed me to explore parts of the country that I never would have otherwise travelled to. Providing me with placement opportunities from doing dairy medicine up north in the Atherton Tablelands to scoring rams in Warren NSW, this degree has given me an appreciation of the myriad possibilities there are for vet work in this country.”

Aaron Lau

BACHELOR OF VETERINARY SCIENCE STUDENT

Career Opportunities

Veterinarians not only work in private veterinary clinics but their expertise is also vital in a range of fields including agriculture, quarantine and public health, as well as pharmacological and biomedical research. Government statistics forecast strong employment growth and earnings for veterinarians.*

Employment opportunities are diverse and include:

- Operating or working in private veterinary practice
- Zoos and wildlife sanctuaries, animal welfare organisations
- Government departments and agencies in quarantine and biosecurity
- Industries concerned with animal health such as animal nutrition, animal production (stock and breeding) and pharmaceuticals
- Research organisations and university teaching (with further study).

Once you graduate, you will be eligible to register with veterinary registration boards to practise in any Australian state. In addition, JCU graduates are eligible to practise in New Zealand and the United Kingdom.
