Community Empowerment, Sustainable Cities, and Transformative Economies

2-3 July 2021

International Conference on Business, Economics, Management, and Sustainability (BEMAS)

Following the successful international Urban Thinkers Campus (UTC) event in 2019 organised by the Centre for International Trade and Business in Asia (CITBA) at James Cook University-Australia, the Centre is pleased to announce the International Conference on Business, Economics, Management, and Sustainability (BEMAS) on the 02-03 July 2021. The Centre for International Trade and Business in Asia (CITBA) aims to create a platform for academics, researchers, practitioners and students to disseminate their research findings with other global experts.

As the COVID-19 outbreak evolves around the globe, to avoid spreading the virus, we have opted for virtual conference that would allow for remote participation. In order to offer participants a more flexible way to experience the conference at their own pace and timeline; presentations will be either in the form of live streams or pre-recorded video presentations. Background reading materials such as full papers, posters, and source files will be also provided to participants

INTERNATIONAL CONFERENCE ON BUSINESS, ECONOMICS, MANAGEMENT, AND SUSTAINABILITY (BEMAS)

International Conference on Business, Economics, Management, and Sustainability (BEMAS).

The orthodox methods of addressing external risks, climate change adaptation plans, and sustainable economic growth in cities are no longer adequate. These methods, so far, have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries' composition and the emergence of new comparative advantages and skills. Particularly, vulnerable communities and exposed areas, particularly in urban areas, that tend to experience higher susceptibility to external risks (such as climate change, natural disasters, and public health emergencies) have been largely ignored in incremental adaptation plans. Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda. It is essential, therefore, to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution.

CITBA's Panel on the Future of Retailing

Future of Retail

This webinar on the future of retailing will focus on the road ahead for retailers in the wake of the devastating effect the pandemic has had on this sector. We will discuss the lessons that retailers can learn from this pandemic and how retail organisations could improve their risk assessment and resiliency in the future to adopt agile strategies. The discussion will explore perspectives on the future of retail supply chain, retail innovation and cybersecurity risks with the panel comprising a retail practitioner, an academic and a cybersecurity expert.

WORLD WOMEN TOURISM (WWT) GLOBAL WEBINAR SERIES

The World Women Tourism (WWT), an organization connecting women tourism professionals, collaborated with JCU's Dr. Jenny Panchal in launching the Philippines Edition of WWT's Global Webinar Series titled Accelerating Women in the Philippines. Dr. Panchal spearheaded the organization and planning of the webinar, which was held on 4th February 2021, Friday. The event attracted over 500 Filipinos, mostly women living in the Philippines and overseas.

The expert panel includes esteemed speakers Dr. Catheryn Khoo (Associate Professor, Griffith University), Former Undersecretary Alma Jimenez (Department of Tourism & President of ASEAN Society Philippines), Dir. Nelly Nita Dillera (Department of Trade & Industry-Philippine Trade Training Centre, DTI-PTTC) and Ms. Maria Christina Aquino (Chairwoman, Tourism Industry Board Foundation, Inc.). Dr Panchal and Dr Barkathunnisha (Co-Founder, WWT) moderated the webinar.

Apart from the attendees on Zoom, the webinar was live-streamed through DTI-PTTC's Facebook Page which had over 1,000 viewers.

SERVICE EXCELLENCE IN TOURISM AND HOSPITALITY

Dr Tang Chun Meng and Dr K Thirumaran worked closely with our partner university, Baden-Wuerttemberg Cooperative State University in Germany (DHBW) represented by Prof. Dirk Klimkeit as editors of the book “Service Excellence in Tourism & Hospitality Insights from Asia.” Today, customer satisfaction alone is not enough anymore in the tourism and hospitality industry in order to win the loyalty of guests. Instead, the industry need to achieve service excellence by delighting their guests with a set of drivers of excellence. Despite the relevance of the topic to the Asian tourism industry, the extant literature is scarce and fragmented.

The 12 chapters in this book derive from a call for papers as well as from a study tour of Singapore and Malaysia. Papers went through a double-blind peer-review procedure. They comprise both conceptual and—in most cases—empirical papers, drawing on recent research in the Asian tourism and hospitality industry. This edited book sets out to examine what and how companies in the tourism and hospitality industry do to deliver a high level of service excellence. They span aspects including the design of services, managing customer-oriented operations, leveraging digital technology and managing resources.
